Device Specifications

The school's BYOD program supports printing, filtered internet access, file access and storage through the department's network while at school. However, the school's BYOD program does not include school technical support or charging of devices at school.

Before acquiring a device to use at school please read the following technical specifications. These specifications relate to the suitability of the device to enabling class activities, meeting student needs and promoting safe and secure access to the department's network.

Specifications	Device MINIMUM Specifications	Device HIGH-END Specifications (e.g. required for Media/ICT/Digital/Design)

Curriculum Software Requirements

Minimum Software Requirements	
Virus Protection	Up-to-date full version of a trusted antivirus software NOT a trial version or AVG
Office Suite	eg Office 365 (free to all students)
PDF Viewer	eg Adobe Acrobat Reader
Internet browser	eg Internet Explorer, Google Chrome, Mozilla Firefox

Subject Specific Software
Certain subjects have specific software that will need to be installed and used. Majority of the software is free to install and details on required software is provided in the subject selection guides. Teachers will also provide instructions via their classes.

Media, ICT, Visual Art and Digital Technology students will need to purchase the Adobe Creative Cloud (CC) for $15.00 per year. Pay at the cashier and show your receipt to a staff member in the iCentre for installation and setup instructions.
